## Declaration of Conformity to Regulation (EC) No 1907/2006 (REACH)

Ladies and Gentlemen,

all products, that you receive from us, are articles which are not subject to registration according to the REACH regulation. If there are substances in our articles which have to be registered, our upstream supplier has to register them exclusively.

A registration requirement applies e.g. for articles which emit prohibited substances during normal or reasonably foreseeable application during their life cycle (including disposal) and which exceed an annual production quantity of 1 ton as given in the REACH regulation.

Based on the above we assume that our products for you are not subject to registration.  
(see Art. 7 par. 1 of the REACH regulation)

In case that there is a change in the REACH conformity status of the products we supply, we will fulfil our duty to communicate information according to Art. 33 of the REACH regulation and will inform you accordingly.

Basis of our communication in this regard is and will still be the actual list of substances that require registration according to: <http://echa.europa.eu/de/candidate-list-table> (see. Art. 59 par. 10 and Annex XIV of the REACH regulation)

Our contact person with respect to the REACH regulation is:

Name of the authorised representative

Position/job title of the representative

Place, date

Signature of the authorised representative

Company stamp
